ROUTE 37 BUS SERVICE WITHIN OCEAN COUNTY UNDER THE NEW JERSEY JOB ACCESS AND REVERSE COMMUTE PROGRAM**SPECIFICATIONS****I. GENERAL INFORMATION****A. INTRODUCTION**

Ocean County is soliciting, through this Invitation for Bids (IFB), bids from qualified bus operators to provide Route Deviation Service outlined in the following sections, in accordance with NJAC 16:85 rules for Contracting Policies and Procedures which govern this IFB. Ocean County proposes to enter into a contract with an operator to provide local bus service along Route 37 in Ocean County. This service has been provided for the past fifteen years.

During 1998, the Ocean County Department of Transportation and Vehicle Services conducted an extensive review of existing, County-run transportation services. County staff prepared a grant application to NJ TRANSIT for the New Jersey Job Access and Reverse Commute Program (NJ-JARC) to fund expanded transportation services, which has greatly improved transportation opportunities for WFNJ participants in Ocean County.

The purpose of the program is to provide improved transportation opportunities to residents in accessing employment, job training opportunities and other transit routes in the County. A bidder with lift equipped vehicles should identify this equipment on the vehicle inventory summary.

Service under this program will be directed to two user groups, WorkFirst clients and the general public, which includes senior citizens and disabled residents. A key recommendation of the County plan was to match the appropriate type of transit service by targeting high concentrations of WorkFirst clients living in a central geographic area (origin) with large employers located along the Route 37 corridor (destination). Route Deviation Service will link existing centers of WorkFirst participants with large employment, hospital, governmental and transit facilities.

The transportation system will be funded from Local and State sources. The successful operator will be required to cooperate with the County to administer specific reporting materials regarding the operation of the system.

The bidder(s) selected will be awarded a two (2) year contract to provide Route Deviation Service as described in this IFB. Based on availability of funds, the County of Ocean reserves the right to extend the contract for one (1) additional one-year option. The contract period will commence April, 2025.

County Representative

The Official County of Ocean representative for the program and operations will be Mr. David L. Fitzgerald, Director, Ocean County Department of Transportation Services, or his designee. After contract award the County will, at all times, have access to the Operator's facilities, equipment and records. The Operator will designate an individual or individuals as its representative for the duration of the project.

Questions regarding the proposal may be asked through the Procurement Portal on which the bid is hosted. Questions will be directed to David L. Fitzgerald, Director, Ocean County Department of Transportation.

B. LENGTH OF CONTRACT AND TERMINATION OF SERVICE

The contract shall be in effect for two (2) years from date of award, unless otherwise notified by the County in writing. Based on availability of funds, the County of Ocean reserves the right to extend the contract for one (1) additional year, for which pricing was requested, upon mutual agreement between the County and the Contractor.

C. DEFINITION OF TERMS

Contract Hours- defined as the total scheduled service hours (revenue hours, recovery hours and applicable deadhead hours) exclusive of deadhead hours required to transport the vehicle from the Carriers' garage location to the point of the first pick-up and to transport the vehicle from its final drop-off point back to the Carriers' garage, for each bus used in operation.

Appendix A, Exhibit B

Ocean Ride Route Deviation Policy

EXHIBIT B

Ocean Ride Transportation System Route Deviation Policy (Point Deviation)

Ocean Ride operates a county-wide public transportation system for Ocean County residents. The Ocean Ride system includes both Route Deviation Service as well as advance reservation service. Currently, Ocean Ride operates a total of eleven (11) bus routes throughout Ocean County which are made available to the general public. The Reserve-A-Ride system provides door-to-door service for eligible persons only, which include seniors (age 60+) and persons with disabilities.

In an effort to better maintain an effective and cost efficient transportation bus service for the general public residing near established bus routes, Ocean Ride has established a limited Point Deviation Policy. The route modified deviation policy applies only to the Fixed Route Deviation Service.

In cases where logistical conditions permit, the Ocean Ride bus may be diverted off the route for passenger pick-up or drop-off.

1. Route deviation service is available to the general public up to 1 block on either side of the printed bus route where practical.
2. Passengers must call Ocean Ride (**732-736-8989 then press 4**) to speak to a Route Supervisor to request the deviation between **8:30 am and 2:00pm on the day prior to service**. Same day requests cannot be honored. **Drivers cannot make unscheduled route changes.**
3. No more than one (1) deviation will be honored on any trip on the route. The stop times listed in the schedule are approximate. However, the start times for each trip are firm.

Ocean Ride reserves the right to determine reasonable locations for modified route deviations based on an assessment of the specific vehicle operating characteristics (size of transit vehicle, i.e. large transit bus versus mini-bus) as it relates to public safety and welfare as well as roadway characteristics including but not limited to issues related to turning radius, local traffic regulations and restrictive traffic patterns such as cul-de-sac roadways which prevent through traffic.

Riders must follow the above procedure when requesting a modified route deviation along their particular bus route. Riders must speak to an Ocean Ride Route Supervisor and will receive either approval or denial of their trip deviation request. In the event, the Supervisor needs to conduct a field visit of specific conditions, an Ocean Ride Supervisor will respond to the rider's request by 5:00 pm. Considering the roadway design standards of many adult developments and local weight restrictions, Ocean Ride cannot guarantee that all requests can be honored.

Fare Collection Procedures

REVENUE COLLECTION & PROCESSING

Bus Revenue Collection Equipment

The contractor shall provide Diamond Mfg. Model SV or equal. The fare boxes will be installed on all buses supplied by the carrier. This fare box will accept coins and bills.

Bus Revenue Collection Equipment Maintenance

The carrier shall maintain all such fare box equipment in accordance with the standards of the manufacturer. The carrier shall also be responsible for all costs associated with the maintenance and repair of the equipment.

Ocean County has the right to inspect each unit to confirm the carrier's proper maintenance of the equipment. Upon written notification from the County, the carrier shall promptly correct any unsatisfactory items (delays in receipt of materials or parts from suppliers are anticipated and understood).

MANDATORY EQUAL EMPLOYMENT OPPORTUNITY LANGUAGE

N.J.S.A. 10:5-31 et seq. (P.L. 1975, C. 127)

N.J.A.C. 17:27

GOODS, PROFESSIONAL SERVICE AND GENERAL SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to make good faith efforts to meet targeted county employment goals established in accordance with N.J.A.C. 17:27-5.2.

The contractor or subcontractor agrees to inform in writing its appropriate recruitment agencies including, but not limited to, employment agencies, placement bureaus, colleges, universities, and labor unions, that it does not discriminate on the basis of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job-related testing, as established by the statutes and court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

In conforming with the targeted employment goals, the contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and layoff to ensure that all such actions are taken without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

ANNUAL CERTIFICATION OF COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT (ADA)

I, [Click or tap here to enter text.](#) (*Name of Individual*), executing this document on behalf of the undersigned company, partnership, corporation, or entity hereinafter referred to as “Subrecipient”, presently doing business with NJ TRANSIT, hereby warrant and affirm to NJ TRANSIT as follows:

- The Subrecipient certifies that its transportation service is in compliance with the DOT ADA Regulations as per 49 CFR Parts 37, 38 and 39.
- The Subrecipient certifies that any contractors operating some or all of the Subrecipient’s service complies with the DOT ADA regulations as per 49 CFR Parts 37, 38 and 39.
- The Subrecipient certifies that the transportation service offered to individuals with disabilities, including individuals who use mobility devices, is equivalent to the level and quality of service offered to individuals without disabilities.
- The Subrecipient shall not deny service to a person with a disability based on what it perceives to be “safe” or “unsafe” for that individual. Individuals with disabilities have the right to decide the level of risk they are willing to take to travel independently.
- The Subrecipient shall not impose special charges for providing required accessible services to individuals with disabilities.
- The Subrecipient shall not require that an individual with disabilities be accompanied by an attendant.
- The Subrecipient shall not refuse to serve an individual with a disability because its insurance company conditions coverage or rates on the absence of individuals with disabilities.
- The Subrecipient may refuse to provide service to an individual with disabilities because that individual engages in violent, seriously disruptive, or illegal conduct, or represents a direct threat to the health or safety of others. However, a Subrecipient shall not refuse to provide service to an individual with disabilities solely because the individual’s disability results in appearance or involuntary behavior that may offend, annoy, or inconvenience employees of the Subrecipient or other persons.
- The Subrecipient shall ensure that vehicle operators and other personnel make use of accessibility-related equipment or features required by Part 38 of the ADA.
- The Subrecipient shall maintain in operative condition those features of vehicles that are required to make the vehicle readily accessible to and usable by individuals with disabilities. These features include, but are not limited to, lifts and ramps, lighting, mobility aid securement areas and systems, and seat belts and shoulder harnesses.
- The Subrecipient shall promptly repair accessibility features if they are damaged or out of order.

- The Subrecipient shall establish a system of regular and frequent maintenance checks of lifts and ramps sufficient to determine if they are operative. The Subrecipient shall ensure that vehicle operators report, by the most immediate means available, any failure of a lift or ramp to operate in service. When a lift or ramp is discovered to be inoperative, the Subrecipient shall take the vehicle out of service before beginning the vehicle's next service day and ensure that the lift/ramp is repaired before the vehicle returns to service.
- The Subrecipient should carry the occupant and their wheelchair if the lift and vehicle can accommodate them.
- The Subrecipient is not required to permit riders who use wheelchairs to ride in places other than designated securement locations on the vehicle.
- The Subrecipient shall allow riders who use wheelchairs to board and ride accessible vehicles. A wheelchair is defined as "a mobility aid belonging to any class of three- or more-wheeled devices, usable indoors, designed or modified for and used by individuals with mobility impairments, whether operated manually or powered." A wheelchair does not require specific elements or equipment such as front rigging (footplates or leg rests), wheel locks or brakes, push handles, or positioning belts or harnesses.
- The Subrecipient may require that an individual permit his or her wheelchair to be secured. The Subrecipient may not deny transportation to a wheelchair or its user on the ground that the device cannot be secure or restrained satisfactorily by the vehicle's securement system.
- The Subrecipient may recommend to a user of a wheelchair that the individual transfer to a vehicle seat. The entity may not require the individual to transfer.
- The Subrecipient shall permit individuals with disabilities who do not use wheelchairs, including standees, to use a vehicle's lift or ramp to enter the vehicle.
- When necessary or upon request, the Subrecipient's personnel shall assist individuals with disabilities with the use of securement systems, ramps and lifts. If it is necessary for the personnel to leave their seats to provide this assistance, they shall do so.
- The Subrecipient shall permit service animals to accompany individuals with disabilities in vehicles.
- The Subrecipient shall not prohibit an individual with a disability from traveling with a respirator or portable oxygen supply.
- The Subrecipient shall make available to individuals with disabilities adequate information concerning transportation services. This obligation includes making adequate communications capacity available, through accessible formats and technology, to enable users to obtain information and schedule service.

- The Subrecipient shall ensure that personnel are trained to proficiency, as appropriate to their duties, so that they operate vehicles and equipment safely and properly assist and treat individuals with disabilities who use the service in a respectful and courteous way, with appropriate attention to the difference among individuals with disabilities.
- Subrecipients that are public entities that provide general public transportation shall make reasonable modifications in policies, practices, or procedures when the modifications are necessary to avoid discrimination on the basis of disability or to provide program accessibility to their services. The Subrecipient shall make information about how to contact the agency to make requests for reasonable modifications readily available to the public on agency website and marketing materials, and must be accessible.
- Subrecipients are required to have procedures for addressing ADA complaints that incorporate appropriate due process standards and provide for prompt and equitable resolution. Subrecipients are required to sufficiently advertise the ADA complaint process through means such as websites and marketing materials. The ADA complaint process must include the contact information (name and/or title, address, telephone number, and email address) for the individual designated to coordinate compliance, process for filing an ADA-related complaint and information on how they will response promptly to any individual filing a complaint. Subrecipients must retain copies of ADA-related complaints for at least one year and a summary of all ADA-related complaints for at least five years. If the subrecipient does not operate service directly or is a pass-through entity, it must ensure that those entities operating service directly have a procedure for addressing ADA complaints.

Any and all ADA complaints shall be reported to NJ TRANSIT:

IMPORTANT NOTICE TO ALL SUBRECIPIENTS, VENDORS AND CONSULTANTS

**ELDERLY AND PERSONS WITH DISABILITIES FORMULA PROJECTS (49 U.S.C. §5310)
JOB ACCESS AND REVERSE COMMUTE GRANT (Section 3037 of TEA-21, 49 U.S.C. §5309)
NONURBANIZED AREAS FORMULA PROJECT (49 U.S.C. §5311)
URBANIZED AREA FORMULA PROJECT (Cumberland County) (49 U.S.C. §5307)**

NJ Transit is an instrumentality of the State of New Jersey and its employees and officers, including members of the NJ Transit Board of Directors, are public servants. NJ Transit, its employees and officers are governed by a number of civil and criminal laws, which control how NJ Transit and its personnel do business with contractors and consultants. These provisions include the Conflicts of Interest Law, NJSA 52:13D-12; and various criminal laws prohibiting bribery (N.J.S.A. 2C:27-2), and prohibiting offers of unlawful benefits to public servants for official behavior (N.J.S.A. 2C:27-10 & -11). These provisions contain unequivocal and stringent restrictions relating to gifts and gratuities.

Be advised that the law prohibits the receipt of gifts and gratuities by any NJ Transit employee or officer from any person, company or entity doing business – or wanting to do business – with NJ Transit. You are prohibited from offering, and NJ Transit Board members, officers or employees are prohibited from accepting, gifts, gratuities, benefits and other items of value.

The term “gift” is broadly and widely defined. It includes all things and objects, tangible or intangible, including services, gratuities, meals, entertainment, tickets to events, access to membership clubs, travel costs and lodging. Simply put, a “gift” is anything of value.

Do not, under any circumstance, tempt or put a NJ Transit employee in an awkward position of having to refuse a gift or return a gift, no matter how well intentioned or innocuous the gift may be in your eyes.

The bright line rule for you and your staff in doing business with NJ Transit is simple: Offer nothing and give nothing to any NJ Transit employee or officer. It is your responsibility to circulate this Notice in your company and educate accordingly all personnel who do business with NJ Transit.
