- Provider must provide error resolution services for the NewVision Software. The Clerk shall cause the System Administrator to promptly notify the Provider of any Defect. Working with NewVision representatives and the System Administrator, the Provider will attempt to determine the cause of such Defect and provide a plan for resolution as follows:
  - The Clerk shall promptly make available to the Provider all information and data that the Provider and NewVision reasonably may request in order to reproduce operating conditions similar to those present when the Defect was discovered.
  - If the Provider believes the problem to be caused by the Equipment, the Clerk shall dispatch the Hardware Servicer to resolve the problem, and the Provider shall provide any necessary assistance to the Hardware Servicer. In any event, if the Provider and the System Administrator agree that onsite assistance from the Hardware Servicer will speed problem determination and/or resolution, the Clerk will dispatch the Hardware Servicer to provide such assistance.
  - If the Provider believes the problem to be caused by the Licensed Software or is unsure of the cause of the problem, the Provider will work with the System Administrator to implement remote access support via a Virtual Private Network (VPN). If the Provider is unable to determine the cause of the Defect through remote access or with the assistance of the Hardware Servicer, the Provider shall dispatch a NewVision representative to the Delivery Address to fix the problem at no additional cost to the Clerk.
  - If the Provider believes the problem to be caused by the Third Party Software, the Clerk shall provide access to certain equipment within the System by a representative of the

particular software company responsible for developing and/or supporting such software (“Developer”).

- If the Provider and the System Administrator agree that a temporary fix to the Licensed Software is feasible and necessary to keep the System running, then the Provider will cause the fix to be implemented.
  - If the System Administrator and the Provider mutually determine that a program change is necessary to the Licensed Software, the Provider will work with NewVision to develop the code necessary to implement the change within a reasonable time, test the change, and provide change code.
  - If the System Administrator and the Provider determine that a program change is necessary to fix a problem with any Third Party Software, the provider will coordinate with the Developer to develop the code necessary to implement the change within a reasonable time, test the change, and provide change code at no additional cost to the Clerk.
  - In the event of a Critical Defect, the Provider will use reasonable efforts to respond to the System Administrator’s notice of such Critical Defect within one (1) Coverage Hour and to commence service within two (2) Coverage Hours. The Provider will make a reasonable effort to fix or repair the Critical Defect within the twenty-four (24) hours of the notice of such Defect from the System Administrator, but the Provider cannot guarantee a fix within that time period.
  - In the event of any Defect other than a Critical Defect, the System Administrator and the Provider will mutually determine whether such Defect needs to be corrected promptly or can be corrected on a modified next-release basis. If the System Administrator and the Provider agree that such Defect is of such severity that it must be corrected immediately, then within four (4) Coverage Hours, the Provider will furnish complete off-site Telephone Support in an effort to correct the Defect and the Provider will use reasonable efforts to correct the non-critical Defect in a reasonable period of time.
  - The Clerk and the Provider shall endeavor to track information concerning maintenance calls on the NewVision Incident Tracking System. In the event of a Critical Defect, the System Administrator shall initially communicate the related issues via telephone to the provider, and the System Administrator and the Provider shall cooperate in recording the related incident in the Incident Tracking System. In the event of any Defect other than a Critical Defect, the System Administrator shall initially report the Defect to the Provider via entry in the Incident Tracking System. The Clerk shall enter into the Incident Tracking System all information and data that may reasonably be required by NewVision to diagnose and resolve the Defect.
