Side pockets shall have a firm straight bartacks at top and bottom of pocket openings (use of triangle bartacks will be cause for rejection). Pockets shall be constructed using the stitch, turn, and topstitch method. Pocket facings shall be made of the basic fabric and measure a minimum of 1 ½" from the bottom of the pocket opening. The watch pocket shall be located on the right front 1" below the waistband. This pocket shall have a minimum opening of ¾" depth of 3 ¾". The front of the pocket shall be made of pocketing fabric and back of the pocket shall be made of basic fabric and the two pieces are securely stitched together. Each corner of the pocket opening shall have a firm straight bartacks. There shall be a club pocket located 5 ¼" (plus or minus ¼") from the side seam with a minimum opening of 3 ½" and minimum depth of 8". Pocketing material to be the same as side and hip pockets.
